The abandoned of the economic growth

In many villages of the remote mountainous regions of southern China, the minorities' people are still very poor. Their income per capita is about US\$ 50 a year. For the Miao, Yao and Dong of the "Great Miao Mountains" north Guangxi province, the school fees are too high. They try hard to school their children but most of the time are not able to pay the school fees. The girls are the first victims of this situation and many have to leave the school if they do not receive outside help.

3800 sponsored children

Since March 1998, « Couleurs de Chine » has established a sponsoring programme mainly targeting little girls of Miao, Yao and Dong minorities in Guangxi. The school fees are directly paid to the schools. Their appropriate use is regularly checked when we visit the villages. Thanks to many sponsors' donations, by the end of 2005, more than 3800 children were sponsored (90% girls) in 50 villages. Many other villages are still waiting for our help.

150 for three years of primary school scholarship (or HK\$ 500 for one year)

By donating 150 you can sponsor a child and finance three years of her/his primary school. The scholarship is 6 years for primary school (with sometimes one preschool year). The secondary school is 3 years and high school 3 more years (for the most gifted) The university courses are usually 3 years

The sponsors are kindly requested to renew their sponsorship in due time in order to alleviate the work of the association voluntary workers.

Support funds to schools, families and villages

Thanks to previously collected funds, around 20 village schools have been rebuilt in traditional style. A girls' dormitory has also been built in the Danian secondary school. Schools playgrounds, blackboards and good quality tables have also been bought with these funds. Families in extreme difficulty have also received some help thanks to these funds.
